

**WINE OF  
MOLDOVA**  
A LEGEND ALIVE

# ENOTOURISM GUIDE

## REPUBLIC OF MOLDOVA

# WINE OF MOLDOVA, A SUCCESS STORY FROM EASTERN EUROPE, CRAFTED FOR YOU TO ENJOY

Wine of Moldova has become the Ambassador of our country abroad.

The new generation of wines has its roots in a rich and complex history, offering the authenticity sought by many consumers. At the same time, these are unique and surprising wines, especially the blends of local and international grape varieties, which express the Moldovan terroir and offers something fascinating to wine amateurs in search of new tastes and styles. "Wine of Moldova" today is the very real result of this country reinventing its approach to wine - focusing on quality, consistency and 'enjoyment-in-a-glass' as its priorities. As an additional sign of confidence for consumers, this national wine brand, with its stork logo, has become a quality symbol legally enforced by the National Office for Vine and Wine and only wines that pass rigorous quality control checks may display it.

The National Office for Vine and Wine was established in 2013 and, ever since, it has undertaken to support increasing exports of quality wines to more and more markets around the world. It has worked with wine producers to set up a system of protected geographical indications based on the EU model. These cover the three winegrowing regions of **Valul lui Traian**, **Ștefan Vodă** and **Codru** as well as a category of **Divin** for the country's wine brandies. Moldovan wine has undergone a complete revolution in improving wine quality over the last decade, with clear proof shown by over 842 medals awarded to

Moldovan wines in 2019 at renowned international wine competitions such as: Decanter World Wine Awards, Mundus Vini, Concours Mondial de Bruxelles, International Wine Challenge and more.

Moldova has the highest density of vineyards in the world and can offer a variety of wines to meet just about every taste. It grows both international and indigenous local varieties including Viorica, Rară Neagră, Fetească Neagră, Fetească Albă and Fetească Regală. But perhaps the most unique and exciting are the blends where Moldovan winemakers can express their individuality and the Moldovan landscape, all with a local twist.

The National Office for Vine and Wine is proud of its contribution towards helping the wine industry to rethink and reform, and to ensuring its wines meet international quality standards. Wine of Moldova is a sign of that change as well as a symbol of our commitment to our customers and business partners.

**Dr. Gheorghe ARPENTIN**

Director, National Office for Vine and Wine, Republic of Moldova

President of the "Commission for Safety and Health" at the International Organization of Vine and Wine (OIV)

The Republic of Moldova is a country located in Eastern Europe, bordered by Ukraine to the east and Romania to the west. Its geographic location means that the country has a moderate continental climate with short (though sometimes very cold) winters and long summers. Moldova's landscapes vary considerably from endless steppes of the east, to forested hillsides of the central zone, and on to the vast Bugeac Plain in the south. It is becoming a popular tourist destination for its diversity of natural and cultural sites; its vineyards and wines; and its warm hospitality built on ancestral traditions and customs. Major tourist attractions include several medieval fortresses where visitors can take a journey into the Moldova's past and the historic monasteries that reveal the spiritual side of this nation.

Moldova is also internationally famous for its vast underground cellars at Cricova and at Mileștii Mici - the latter holds the Guinness World Record for the largest wine collection in the world. In the last few years the number of wineries open to tourists and visitors has doubled, offering a wonderful opportunity to get close to Moldovan wine, with a personal connection to the winemakers and their very human stories. Wine tastings are often accompanied by a taste of homemade local food too, based on locally sourced flavoursome ingredients, a reflection of Moldova's rich folklore and traditions.

## WINE OF MOLDOVA. A LEGEND ALIVE

OUR WINE HAS BEEN CRAFTED

BY GENERATIONS OF WINEMAKERS

IN THE LARGEST CELLARS IN THE WORLD

APPRECIATED BY CONSUMERS IN BOTH EAST AND WEST

SUPPORTED BY LEGENDS THAT EVERYONE CAN EMBRACE

Moldova's long history of winemaking began around 3000 BC, and the first traces of grapevines in these lands have been dated back to around 7000 BC. Throughout its history, wine and grapes have been deeply rooted in the culture, myths, folklore and legends of Moldova. Even the map of today's Republic of Moldova is shaped like a bunch of grapes. We have chosen the white stork, with its leading role in so many local legends, as the symbol of the Moldovan wine industry and of the continual rebirth of Moldovan wine. That is why a stylised image of a stork carrying a bunch of grapes is part of our national wine brand image – "Wine of Moldova. A legend alive".

Our vision statement says, "Our wine has been crafted by generations of winemakers in the largest cellars in the world, appreciated by consumers in both east and west and supported by legends that everyone can embrace," and we hope and believe that Moldova's wine can continue to win new friends all over the world.

That vision has been supported by a series of structural reforms, brought in by the National Office for Vine and Wine. This refocused Moldova's wine industry towards a new approach and brought with it a significant leap in quality. Since 2013, Moldova has embraced a quality system based on the EU model of protected geographical indications (PGI), established around three traditional vine growing areas and based around research into differences in climate and growing conditions. These are Valul lui Traian, Ștefan Vodă and Codru plus a special geographical denomination for grape distillates called Divin. In 2019, the areas covered by vineyards with Protected Geographical

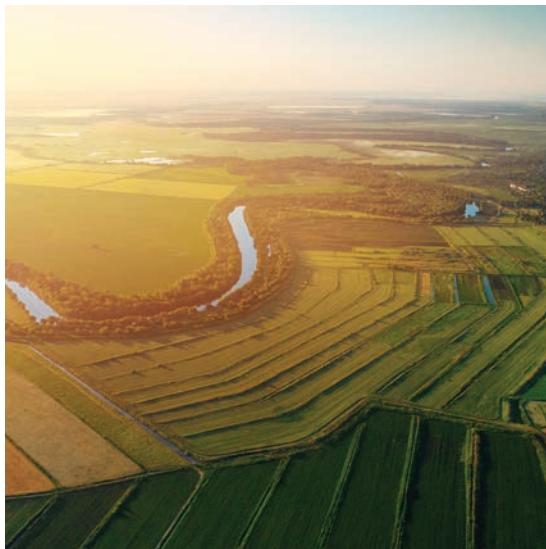

Indication have increased by 4%, the total surface now being of 9573,5 ha. At the same time, the number of wineries producing wines with PGI has increased by 10%, or 78 wine producers, most of which are registered in the PGI Region of "Valul lui Traian" (Trajan's Wall). A multi-stage monitoring system covers the entire production process and authorized professional tasters carry out organoleptic certification. A national wine and vine register is also work-in-progress in line with best practice in Europe and there are plans still in development for more specific protected designation of origin (PDO) wines. Practical results of these changes are now clear to see. Only in 2019, our wines were awarded with 842 distinctions at 43 international wine contests. The wine producers, united under the country wine brand "Wine of Moldova", have added to their collection 345 golden medals, 263 – silver and 132 – bronze. Moldova wineries regularly unite under the umbrella of the national wine brand "Wine of Moldova" to take part in a large number of trade fairs in Europe, North America and Asia Pacific. As a result, Moldovan wines are now sold in 63 countries, mostly in high-value European Union markets, registering steady growth over the last 5 years and underpinned by shared branding and marketing organized by ONVV.

Wine is also Moldova's trump card in the development of tourism as the country's attractions include a fascinating variety of wineries, as well as the largest wine cellars in the world. These were established in former limestone quarries with more than 200 kilometres of tunnels which can be driven through. The biggest wine collection in the world, registered in the Guinness Book of World Records, consists of more than 1.5 million bottles (and growing with every vintage). It is stored in Gothic-style niches at a depth of 80 metres in the underground galleries of Mileştii Mici, situated just 10 kilometres away from the capital Chişinău. Another striking symbol of Moldovan winemaking is the underground wine city of Cricova, which has galleries stretching over 70 kilometres. It was founded in 1952 and is Moldova's biggest producer of sparkling wine. Cricova is also home to Moldova's national wine collection, which features a number of historic wines including old vintages of Moselle, Bourgogne, Bordeaux and Port. The oldest bottle in the collection, and the only one of its kind in the world, is the wine known as Easter Jerusalem, which was produced in just a single batch in 1902.

# MOLDOVA'S WINE REGIONS

## VALUL LUI TRAIAN (Trajan's Wall)

This region lies in Moldova's south west, where you can still see remnants of two fortified walls built by Roman Emperor Trajan to protect his lands from barbarian invaders. The climate is Mediterranean, with warm, dry summers and mild winters moderated by the Black Sea and protected by the forests that grow on the Tigheci Hills. The soils are leached and carbonated chernozems, with some areas of sand and clay, with low fertility, providing very good conditions for viticulture. The region is divided into 3 sub-zones: the hills of Tigheci, the Bugeac Plain and the Prut Terraces and the landscape includes forests, steppe, plains and plateaux. This is the warmest and driest part of Moldova but also the highest with altitude going up to 310 metres, helping to retain freshness and balance in the wines. The region is particularly noted for red wines which make up 60% of production, but it is also famous for its sweet fortified wines (now called Pastoral) and full-flavoured whites.

## ȘTEFAN VODĂ

This wine region is situated in the south east of Moldova, at an average altitude of just 120 metres, which includes terraces along the Dniester river, plains and slopes. The climate here is moderate continental, influenced by the Black Sea, and has an annual rainfall of 450–550 millimetres. Typical soils are podzolized and carbonated chernozems with clay in some areas. The region is particularly noted for red grapes. Rară Neagră is particularly notable here - an indigenous variety to the region (it grows as Băbească Neagră in eastern Romania). Whether it's the particular clones found in Moldova, or the growing conditions, this grape offers its best expression here and it is also a key ingredient in one the country's most renowned wine blends: Negru de Purcari. Other local and European varieties which perform well in this region include Merlot, Fetească Neagră, Saperavi, Pinot Noir, Pinot Gris and Chardonnay.

## CODRU

This is Moldova's central region, extended in 2016 to include Bălți and vineyards in Transnistria. It Moldova's coolest zone, full of wooded hills and slopes around many small river valleys. Oak and linden forests cover 25% of the landscape protecting the vineyards from northerly winds and frost. Soils here are typically grey forest soils and chernozems. Winters are long, but not usually extreme, while summers and autumns are warm and altitude above sea level is 100–150 metres. The region is noted for white grapes, especially Fetească Albă, Muscat Ottonel, Sauvignon Blanc and Chardonnay, and also suitably crisp base wines for sparkling wines. Red varieties can also be grown in warmer microclimates, especially for the noted Codru blend. The famous underground wine cellars Cricova and Mileștii Mici are located in this region.

## DIVIN

This PGI covers the whole of the Republic of Moldova and is for spirits distilled from wine through double distillation and aged for at least 3 years in contact with oak. Divin is produced from a range of both international and local grape varieties, which must be grown within the country. Most typical varieties include: Aligoté, Chardonnay, Fetească Albă, Luminita, Pinot, Riton, Rkatsiteli, Sauvignon and blends of these varieties. Divin is appealing and clear to look at, with colour ranging from pale gold to amber, a bouquet of flowers and fruit when young but with further ageing, it gains notes of vanilla, chocolate, sandalwood, coconut and coffee beans.

## GRAPE VARIETIES IN MOLDOVA

Viticulture in Moldova includes cultivation of Western European, Black Sea Basin and indigenous grape varieties. Vineyards of wine varieties of the noble *Vitis Vinifera* cover a total area of 81,000 hectares, 70% of which are white varieties (especially Rkatsiteli, Sauvignon Blanc, Chardonnay, Aligoté though exact plantings won't be finalized until the vineyard register is complete) located predominantly in the Codru region, and 30% are red varieties (Cabernet Sauvignon, Merlot, Pinot Noir, Saperavi and more), typically grown in the southern regions. Aromatic varieties account for around one third of the vineyards. Local grape varieties (such as Rară Neagră, Fetească Neagră, Fetească Albă, Viorica) are becoming increasingly important as a point of difference and to offer something with real Moldovan character. These currently account for an estimated 5% of vineyards though this is growing every year due to increasing international interest and thanks to support from government programs.

## FETEASCĂ ALBĂ

This variety has been cultivated for centuries in this region and appears to be a very ancient grape. The wines of this variety are fine and delicate, with floral aromas and a light and fresh body. It's one of the parents of Fetească Regală (along with Frâncușă) which comes from Transylvania in Romania but has been grown in the Moldovan region for decades.

## FETEASCĂ REGALĂ

This a semi-aromatic grape variety is the result of a natural cross, found near Sighișoara in Romania in 1920s. It has typical floral and grapefruit aromas and flavours of fresh pear and citrus but is usually more full-bodied and textured than its parent.

## FETEASCĂ NEAGRĂ

This is an old variety local to the region, possibly cultivated as early as Geto-Dacian times, in south east Romania and what is today's Republic of Moldova. It is relatively pale in colour with gentle soft tannins and spicy berry fruit. It seems particularly well suited to the sunny slopes of southern Moldova.

## RARĂ NEAGRĂ

Cultivated as early as Geto-Dacian times, it has been perfectly adapted to the sunny slopes in the South of Moldova. Wines made oh this variety are very fresh, soft in taste, with notes of dry fruit and vanilla.

## UNIQUE EXPERIENCES TO TREASURE FOREVER

We have a full calendar of concerts, festivals, races, wine run, and even a marathon. Every year, thousands of Moldovans participate in these events, so why not join them? In the autumn, first weekend of October, come to the largest holiday “National Wine Day”, dedicated to the millennial tradition in winemaking that reached the 18 th edition. Another big event where you must come is “Ethno Jazz” festival to hear folk and jazz musicians from around the world. In the summer, visit “DescOpera”, a three-days opera festival, to hear spine-tingling performance in an open air amphitheater. In the depths of winter, head to our underground wine cellars for either music, at “Underland Fest”, or exercise, with the 10 km Wine Run. Whatever you choose, the memories you make in Moldova will last a lifetime.

A photograph of a traditional Moldovan meal. In the foreground, a white ceramic bowl is filled with a vibrant yellow soup, likely a vegetable soup, garnished with fresh green herbs and sliced red and yellow vegetables. A single, long, dark red chili pepper lies on the white saucer next to the bowl. In the background, a plate of golden-brown, fried dumplings (sarmale) is visible, resting on a white lace doily. The entire scene is set on a white tablecloth.

## MOLDOVAN HOSPITALITY

It's the people that make Moldova special. Travel to any corner of Moldova and you will be welcomed by genuinely warm and friendly people and food is at the centre of that welcome. When you arrive in a Moldovan village, before you know it you will be at a table groaning with food, accompanied by local wine, sometimes made by your host or from a winery nearby.

Our national cuisine may surprise you with its simplicity and yet richness of flavour, based on our local production from our fertile black soils. Meals often start with soup, and a favourite is a hot and sour soup called Zeamă, cooked with homemade noodles. Main courses are typically accompanied by Mămăligă - a dish made from cornmeal (similar to polenta). It's always cut in a cross with a thread and served with Moldovan cheese ( a salty white cheese called Brânza), sour cream and a meat stew called Tocană.

Most households make their own home-made versions of our famous pastries called Plăcintă (or Plăcintele). These are made from layers of flaky pastry with a variety of fillings: cabbage, local cheese, apple, pumpkin or cherry. The cheesy versions are particularly good at wine tastings. Sarmale or dumplings, as they are sometimes called, are popular across the whole of Moldova. Sarmale are parcels or rolls made from cabbage or grapevine leaves. These are stuffed with a mixture of minced meat (usually pork) rice and herbs. Each region has its own slightly different recipe and sarmale are usually served with mămăligă and sour cream, or with home-baked bread. Moldova's home-grown vegetables are incredible – fresh salads feature in season as well as dishes based on peppers, aubergines and tomatoes. Desserts may be smoked plums stuffed with walnuts (Moldova's roadsides are lined with walnut trees), or look out for the slow baked traditional cake called Baba Neagră.

Located only 30 km from Chişinău, Asconi offers everything a tourist could wish for: beautiful landscapes, rustic architecture, tasty food and great wines. Tours include a visit to the winemaking, storage, packaging, bottling and maturation facilities, where visitors can see the full journey of the grapes, how they are processed, fermented and turned into wine. After seeing the technical side of winemaking, visitors are invited to enjoy a guided wine tasting of up to 7 different wines of their choice: red, white or rosé, and aged in oak or young fresh styles. Asconi is one of the very few wineries in the country to make three different types of Ice Wine that have all won awards in international competitions. After seeing the modern production halls, guests head to a relaxing oasis – the stone and clay restaurant and its wooden veranda are perfect for discovering how Asconi wines can partner traditional Moldovan cuisine. The menu is based on recipes from households in the nearby village of Puhoi, passed down from generation to generation.

**atú**  
WINERY

ATU Winery is the first urban winery in Moldova. It's located in Chisinau and is open to visitors and for events all year round. ATU wines are produced in very small batches of just 1000-3000 bottles, which allows us to pay complete attention to every single drop of wine. All our wines are made by hand, from harvesting to labelling, with the whole process taking place on site. Owner and winemaker Victor will be on hand to greet visitors, tell the ATU story and explain all about our wines.

Our wine range is centred on local varieties including Viorica, Fetească Albă, Fetească Neagră, and the rare red Codrinschii. ATU is a new brand, released for the first in 2016, but already building a reputation for its unique wines, hand-crafted in limited quantities.

# BARZA ALBĂ

FONDAT 1944

Located just 135 km from Chişinău, the Barza Albă Divin distillery offers a wonderful experience for the enthusiastic wine tourist. This includes beautiful landscapes near the distillery, flavoursome snacks and remarkable divins. Visitors can see the whole production process and equipment used to make divin and visit the maturation halls, full of oak casks. After getting acquainted with divin production, we offer visitors a guided tasting of up to 10 different styles of divin as well as an apple cider brandy. Tourists can choose from several tasting packages: divin categories include VS, VSOP, XO, XXO. Our own sommelier will be happy to explain the history and characteristics of divin and other brandies, and will guide visitors to learn how to distinguish the styles, flavours and colours of the different products.

The Barza Albă Divin distillery is proud that it is one of the few in the country that has been awarded 150 medals, of which 80 are gold. It has also won 10 Grand Prix and a Star award for special quality. In 2003, the company was awarded a Grand Prize for its significant successes in winemaking and for promotion of Moldovan divins on the international market. In 2004 and 2005 the company won National Awards for fair competition.

*Château*  
**VARTELY**  
WINE. CULTURE AND LEISURE RESORT

Château Vartely is a modern winery built with the aim of bringing together the best of “old world” and “new world” approaches to winemaking. Founded in 2004, the company combines state-of-the-art viticultural techniques and processing of grapes with a passion for production of quality wine. Château Vartely is also a culture and leisure resort, with tasting rooms, a restaurant, three unique guesthouses and a cellar that houses 500 oak barrels where wines are aged. The winery is a national and international leader in promoting wines from indigenous grape varieties such as Fetească Regală, Fetească Neagră and Rară Neagră. It’s a must-see destination for those who want to discover authentic Moldovan wine. Additionally, Château Vartely keeps a collection of wines from five continents, the oldest bottle dating back to the 2005 vintage. After a professionally guided wine tasting, tourists can indulge in an excellent gastronomic experience at the winery’s restaurant, which combines Moldovan and European cuisine.

CRAMA  
TUDOR

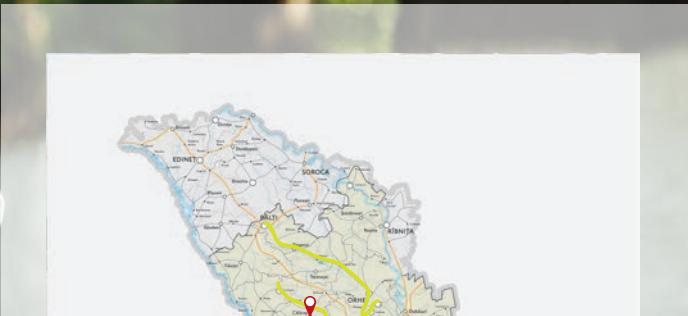

The wine cellars of “Crama Tudor” are located in the central part of the country, in the village of Sadova from Călărași. The owner Tudor Aghenie is a sixth generation winemaker and his passion for winemaking was inherited from his ancestors – noblemen who owned estates in the region. Even back then, the wines from Sadova were enjoyed not only at home, but also in European capitals.

The past few years, Tudor Aghenie manages to combine his passion of a skilful winemaker with that of a promoter of rural tourism. “Crama Tudor” is situated in a beautiful landscape, near the forest, right next to the vineyards – a perfect refuge for guests and tourists. A few wooden houses are available for accommodating guests. They are built in a traditional style, with ovens for preparing “sarmale” and “plăcinte” – one of the best traditional Moldovan dishes, and a cellar with wines produced at the winery. Initially, this place was designed for the breaks of the vineyard workers, but today it is an important attraction for tourists eager to discover the quality wines and the traditional dishes, prepared with love and virtuosity by Tudor Aghenie’s family.

NOMEN EST OMEN

# CRICOVA

Cricova is one most renowned wineries in Moldova, especially noted for its 'underground city'. The unique labyrinth of tunnels, created from a former limestone quarry, houses 30 million litres of wine and stretches over a distance of 70 km. The streets of the underground city are named after the wines kept in adjacent niches: Cabernet, Chardonnay, Sauvignon etc. Some of the streets are as deep as 80 metres below ground, which ensures constant humidity and temperature throughout the year. This makes it an ideal place to store the National Wine Collection that includes the best local and international wines; wines from Herman Goering's collection paid as retribution after World War II and unique vintages from Moselle, Bourgogne and Bordeaux. The oldest wine in the collection is Ierusalimul de Paști (Easter Jerusalem) produced in 1902, unique in the world. Cricova was also the first winery in Moldova to produce sparkling wine by the traditional method of bottle fermentation and has won recognition for its quality at highly-regarded international competitions such as Effervescents du Monde. Famous personalities also hold wine collections in these underground galleries, among them are Angela Merkel, John Kerry, Vladimir Putin and Donald Tusk.

● ● ●  
**et cetera**

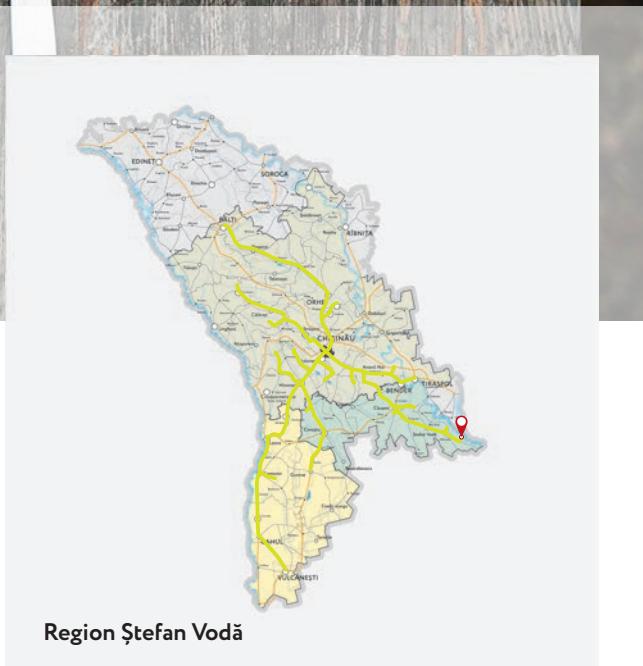

“Et Cetera” is a family adventure, which took the form of a winery owned by the two brothers. Located in the South of the country, the story of the winery starts in 2002, when Alexandru Luchianov, one of the brothers, purchased the field where the vines currently grow, a restaurant and a small hotel.

Love and care are the most important in maintaining the wellbeing of a family, and this principle also guaranteed the success of the “Et Cetera” winery. Each step of the wine production is carefully supervised by the members of the family, starting with the growing of the grapes by respecting strict ecologic methods, the fermenting and maturation of the wine in oak barrels, and the presentation of the product to the guests of the winery. Equipped with modern wine production facilities and using production methods developed with time, “Et Cetera” creates wines recognized for their unique flavours and tastes and, thus, contributes to the development of the wine consumption culture in our country.

For more than 15 years, “Gogu Winery” is a passionate love story for wine. Located in the town of Căușeni, the winery was born as a result of the great desire for creating quality products, with emphasis on local terroir. From its beginnings, the wines were created with simple technical equipment, usually used by amateurs, but in 2011, “Gogu Winery” officially becomes a small registered winery. This is when the modernization of the production process began, the facility being built on the territory of the winemaker’s household.

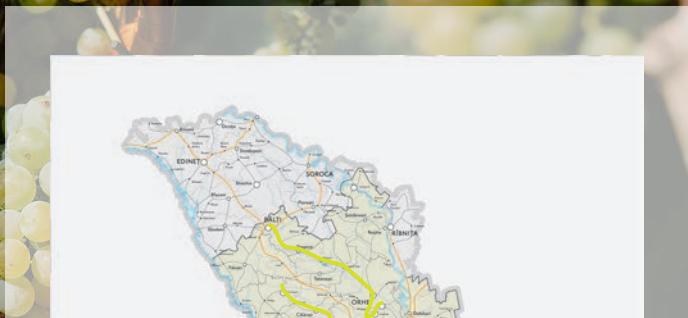

In 2014, the first bottled wines from the “Gogu Winery” were displayed on the shelves of specialised shops. Shortly after, the wines caught the attention of the local wine lovers, who started praising the winery, especially for its refreshing Sauvignon Blanc.

Today, the household of the Gogu family, besides the production section, also houses a tasting room. Here, visitors can enjoy the wines paired with traditional dishes and take a walk through the wine cellars where the barrels with wine are stored. Currently, the winemaker started the construction of a specially equipped facility for wine production outside their household, and this will allow him to produce even more wonderful wines and welcome a larger number of guests, eager to learn the story of “Gogu Winery”.

# KARA·GANI

HANDCRAFTED WINE ESTATE

Kara Gani is a small family winery with vineyards in southern Moldova, near the town of Vulcănești. A combination of the ideal climate, modern technology and old Gagauz winemaking traditions help the Cerven family to produce high quality wines. The winery can offer an excellent tourist experience including a local tour, which includes a visit to the historic monument of the Battle of Cahul and the ruins of Trajan's Wall, followed by a walk through the Kara Gani vineyards and winery. At harvest time, visitors can join in with grape picking and winemaking, as well as visiting the winery's treasure house – its cellars. Visitors are welcomed with traditional Gagauz food: surpa, sarmale, dolma, kavarma, gozleme all paired with Kara Gani red wine, which is already becoming a local legend. There's a small museum with a collection of items of historic and sentimental value to the Cerven family. And for the full Gagauz experience, visitors can take a trip in a donkey cart.

**KVINT**<sup>®</sup>  
Since 1897

Kvint winery and distillery is located in Tiraspol and is one of the largest producers of wines and wine distillates in the region. Kvint produces a wide range of dry, semi-dry and dessert wines, vermouths, vodkas and other liquors, but the calling card of the winery is its wine distillates: Divins. These spirits are aged in hundreds of oak barrels, which store around 11 million litres, the oldest dated 1951. The winery owns a museum where tourists can see historic labels, bottles and photos telling the story of the company, which dates back to 1897. One special exhibit is a bottle that travelled to space in 1998, taken by Russian astronauts to the MIR space station. Another 'artefact' is a bottle of Kvint Divin that was taken to the Vatican, where it was blessed by Pope John Paul II. Kvint is also the sole producer of kosher Divin, prepared under the strict supervision of rabbis of the Union of Jewish Congregations in New York and exported to Israel and USA.

**LEUNTEA-VIN**

*family winery*  
1817

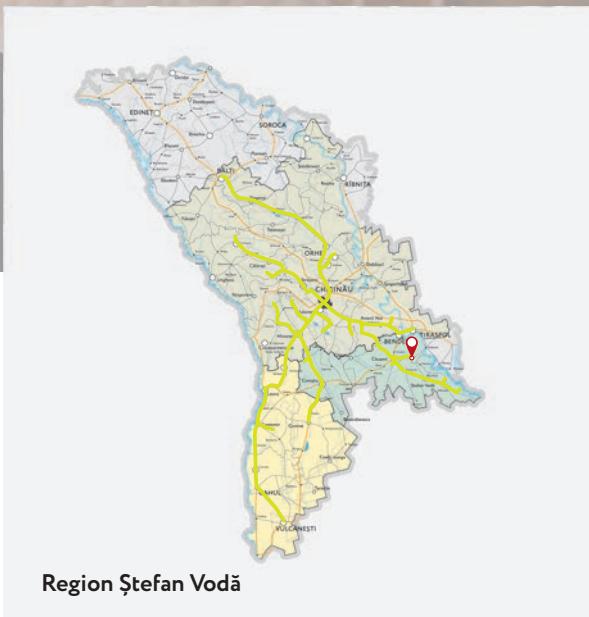

Of a historic importance, “Leuntea-Vin”, situated in the South-East of the country, in the village of Leuntea, is a family winery. Its history began in 1817 in Bessarabia, and became a source of the wine industry development in the region, implementing European wine production science and technologies.

Member of a dynasty of winemakers in his fourth generation, passionate about winemaking, the wine is produced by the owner of the winery Dmitrii Kîssa, an oenologist with over 45 years of experience, who makes sure the production process is in strict compliance with the technology for creating quality wines. The grapes are grown on his vineyards, located near Nistru river in the Purcari area, renowned for its fertile soil, rich in microelements, which creates the optimal conditions for producing exceptional wines. “Leuntea-Vin” keeps the winemaking traditions alive, maintains their quality, the spirit of the past, the atmosphere and history of the place, in order to share its heritage.

Chateau Cojușna is located in the centre of Moldova, in the Codru wine region, only 15km away from capital Chișinău. The winery has a modern wine production facility and a distillery, as well as a tourist complex based on a French chateau in design. This includes cellars where wines are aged in oak barrels, along with 175,000 bottles in the Galeria Migdal wine collection; a distillery which produces Divin and, of course, several tasting rooms decorated in a medieval style. Visitors are also invited to the top of the Chateau Cojușna tower, to see a breath-taking panoramic view of the winery's vineyards.

## Mihai Sava

Mihai Sava's wines are born in the vineyards of Pojogana hills in the village of Costești and bear the name and the signature of this passionate winemaker. Several years ago, Mihai Sava transformed his house into a small winery and today dozens of tourists visit him to live the authentic local experience. His small winery is an oasis of tranquillity for people who want to spend a couple of hours away from the noise of the city. Those who choose to visit this hideaway can admire the stunning beauty of the vineyards by taking a walk along the winding country lanes. After enjoying the breath-taking landscapes, guests are invited into the cellar to taste Sava's Wines. The pride of the winemaker is his Bianca, made from the grape of the same name, and the only version bottled in the whole country. Tourists can also sample traditional dishes like plăcintă or mămăligă with stew and local cheeses – all cooked by Mihai's wife.

The Mileștii Mici wine cellar was included in the Guinness Book of World Records in 2005 for the largest wine collection in the world, of more than 1.5 million bottles. It is also known as the Golden Collection. It is kept deep below ground and includes many unique Moldovan wines going back to the 1969 vintage. The underground galleries of Mileștii Mici are probably the longest in the world, stretching for over 200 kilometres. Visitors can walk through the underground avenues and streets that bear the names of grape varieties, and are large enough to be driven through by car. After experiencing the dramatic cellars, guests are welcomed to the tasting room to sample the wines along with traditional dishes such as sarmale and mămăligă with goat cheese and meat stew.

CASTEL

MIMI

SINCE 1893

Castel Mimi was founded in 1893, when Constantin Mimi, the last governor of Bessarabia, planted the first vine cuttings at his estate in Bulboaca in the Anenii-Noi district. In 2011, an ambitious restoration project was initiated to renovate the mansion, which has been rebuilt stone by stone to restore its original facade. After a period of 50 years of inactivity, Castel Mimi, the only wine castle in the Republic of Moldova, reopened its doors to visitors. Today, Castel Mimi has been listed among top 14 most beautiful architectural masterpieces of the winemaking world by Vivino. Besides its stunning architecture, Castel Mimi has built a reputation for its unique gastronomy thanks to an exquisite menu of traditional dishes reinterpreted as modern 'haute cuisine' using fresh, locally-sourced ingredients. The speciality of the house is its chicken paté with pickles, made from chicken breast and liver, and cooked to a secret recipe. Also worth trying is the traditional dessert Baba Neagră, slow baked for hours and served with vanilla cream and plum sauce. Castel Mimi's exquisite, award-winning wines are served to accompany the menu. The tourist complex of the winery includes a royal courtyard with evergreen gardens; a grand square with dancing fountains; a multi-purpose events hall; a wine spa, a swimming pool; a summer terrace and picnic areas. Overnight accommodation is available in seven chalet-style cottages.

## MIRCEȘTI WINERY

One can rarely meet a winery with such a breathtaking, picturesque landscape in Moldova, that many call this region “Moldova’s Little Tuscany”. The vineyards spread over the hills of Măgura, in a unique region perfectly suited for growing exceptional wines. “Mircești Winery” also owns a white mansion built in a Brâncovenesc style, which once belonged to a local nobleman, and in 2011 it was brought back to life and its value harnessed. At the same time, the first grape vines were planted. Nowadays, the vineyard covers 11 ha, and in 2020 “Crama Mircești” has opened the doors of its own guesthouse, serving traditional Moldovan cuisine.

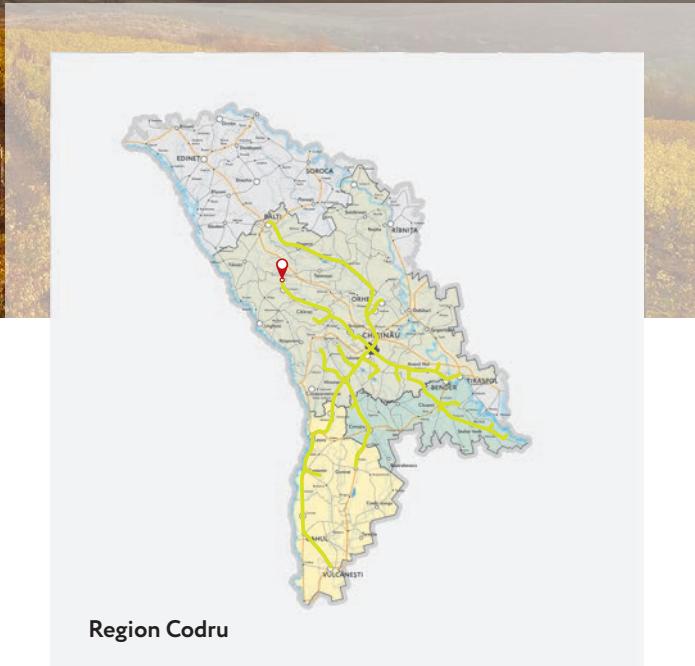

Located in the heart of Moldova, in the village of Mircești, the winery is at an 80 km distance from the capital Chișinău, and 25 km from the city of Ungheni. The region’s climate is comparable to wine regions in Southern Germany (Rhine Valley) or Northern Italy, and each wine variety is planted on the slope best suited for its characteristics. Besides Pinot Noir, Saperavi, Sauvignon Blanc, Chardonnay, Riesling, we grow with care and respect local varieties as well – Fetească Neagră, Rară Neagră, Fetească Regală, Fetească Albă. Due to the diverse variety of vines, we produce single grape wines, as well as blends, under the brand “Crama Mircești” or “Bardul din Mircești”.

We look forward to seeing you!

# NOVAK

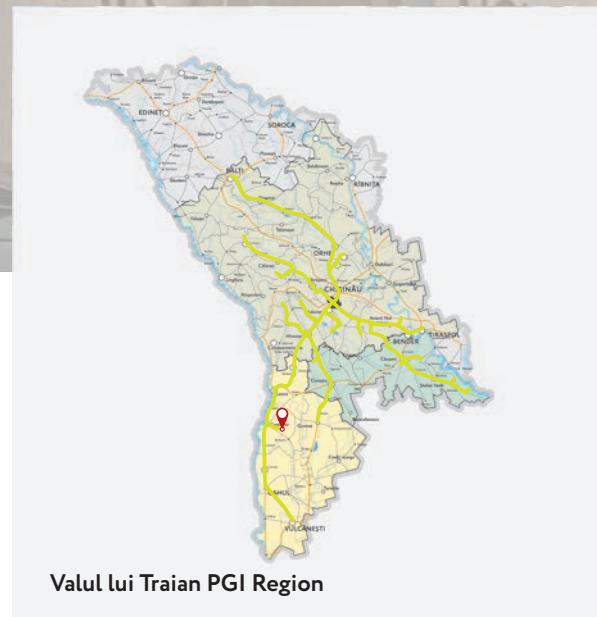

“Novak Winery” is a family owned business, a relatively new name on the market, with a different vision on combining traditions and innovative technologies in winemaking. Located in the South of Moldova, “Novak Winery” embodies the spirit of change and makes sure that each bottle contains a high quality wine. “Novak Winery” wines wear the imprint of the Protected Indication “Valul lui Traian” (Trajan’s Wall), characterized by an expressive, rich and intense taste, specific to the winemaking traditions of the Old World.

Initially, the winery was built as an experimental workshop of micro-winemaking, within a larger enterprise, in order to test different production techniques, types of yeast, fermenting and maturation methods for smaller volumes of wine. The results of the first experiments were so successful, that the Novak family decided to launch the wines on the market with their own brand. Shortly after, “Novak Winery” products succeeded at asserting themselves among the small wine producers in Moldova and be awarded with a series of medals and praises at international contests.

**PODGORIAVIN**

WINES THAT ENRICH TASTE AND SOUL

Growing grapes and winemaking is an art, and talent, ambition, professionalism are the strong features necessary for its development. “Podgoria Vin” is a wine production company in the South of Moldova, which ventured into discovery and promotion of this art. The main priority of “Podgoria Vin” is to produce high quality wines, and the terroir, the architecture of the vines and the love for the wines are the pillars at the base of this process. The winery owns 430 ha of vineyards in the South of Moldova, in the region with “Valul lui Traian” (Trajan’s Wall) Protected Geographical Indication.

Among the grapes cultivated at “Podgoria Vin”, there are European varieties such as: Chardonnay, Sauvignon Blanc, Rhein Riesling, Kerner, Aligote, Cabernet-Sauvignon, Merlot, Saperavi, as well as local ones, like: Fetească Albă, Fetească Regală, Viorica, Fetească Neagră, Rară Neagră. Thanks to the diverse varieties of grapes, the company produces single grape and blended wines, under the brands LIBERA and GENESIS.

The “Podgoria Vin” wine cellars are located 2 km away from the vineyards, which offers the possibility to reduce the timeframes of the grapes delivery to the processing facilities.

We will tell you more about this when we’ll have the chance to enjoy a glass of wine together!

POIANA  
WINERY

Poiana Winery is located near Ulmu village, in the heart of a nature reserve called Codri. This is a beautiful place, on a hillside meadow leading to a lake and surrounded by elm forests. In 1975, this was the film location for one of the most famous movies ever produced in the Republic of Moldova called “O șață urcă la cer” (Gypsies Are Found Near Heaven), directed by Emil Loteanu. Guests can enjoy a wine tasting on the terrace while gazing over the stunning scenery. For those who want to explore further and breathe in the air of the green valleys, bicycle tours and trips to the Forester’s Cabin can be organized.

Located near the Dniester river and not far from the Black Sea, the Purcari winery welcomes tourists to visit its historic chateau, surrounded by vineyards and lakes. The winery's underground cellars were built in 1827 and have managed to protect precious historic bottles including Negru De Purcari from 1948. Purcari is one of the most famous wine brands in Eastern Europe, and is an official supplier of wine to the Royal Houses of Romania and the United Kingdom. At Chateau Purcari, great wines naturally meet great gastronomic experiences. Lovers of classic European cuisine will appreciate the foie gras and elegant rucola salad, and those who prefer local cuisine will be able to enjoy traditional masterpieces – plăcintă, zeamă, and sarmale cooked in Chardonnay vine leaves.

## TRONCIU

“Tronciu Wines” is small family business born in the household of Nicolae Tronciu. The quality wines produced here excel with their unique character and nature and are produced with passion and dedication in limited editions. Nicolae Tronciu puts soul in the entire process of growing and producing the wines, thus the special feature of the wine is felt in every bottle. These wines are created for the close friends and family, as well as for the people who know how to appreciate a wine produced with the efforts of a modest and honest man.

The winemaker offers dry and semi-dry wines of the local grape variety Fetească Neagră, as well as wines produced with international varieties Cabernet and Sauvignon. In the winemaker’s household, tourists can enjoy and discover the secrets of the wines produced by Nicolae Tronciu, as well as the authentic traditional dishes from the Codru region.

Brănești Winery is set in an old limestone mine, whose galleries stretch over 75 km. The entire construction is at least 60 metres deep, ensuring a constant temperature of 12-14 degrees throughout the year and a humidity level of 90-92%, ideal for ageing wine. These natural conditions are complemented by the artisans who turn grapes into delicious wine. The winery has about 800 hectares of its own vineyards in a beautiful forested area on the slopes of Orheiul Vechi, and also close to the villages of Romanești and Tudora. We export our wines to a number of countries worldwide, but we also want to show our wines to tourists visiting Moldova.

We are pioneering the first underground hotel in Moldova and we are developing a unique “Stone Age” tourist complex. This will offer visitors an opportunity to experience life in a cave, as it would have been in the Stone Age, with small touches of the modern epoch. The Brănești winery is quite unique due to its geographical location and atmospheric galleries.

When the Stone Age hotel and tourist complex of Brănești Winery opens its doors, visitors will be able to explore the underground galleries; taste wine in the specially designed tasting rooms; rent wine storage alcoves and participate in cultural events. There will also be a spa and a restaurant. We want our guests to enjoy cave life away from the noise of modern civilisation and everyday worries so there will be no internet or mobile signal within the complex (though mobile signal will be available at the main entrance).

VINARIA  
• D I N •  
VALE

Born in Moldova, where tradition and passion for winemaking is part of the national DNA, “Vinăria din Vale” is located in the most Southern extremity from the country – in “Lunca Prutului de Jos”. It’s a UNESCO protected natural Biosphere, where you can enjoy: boat rides on Lake Beleu, bird watching of pelicans, storks, egrets and admiring water lilies. The region is also famous for its cultural heritage: The Village Museum, local churches, traditional handcrafting workshops, as well as for the people who made us famous in the entire world, like Lidia Bejenaru, also known as “Boonica from Eurovision”.

Vinăria din Vale is a business developed by the Davidescu family, with over 25 years experience in the wine industry. In the winery’s vineyards grows a large variety of international wine grapes, as well as indigenous varieties such as Fetească Albă and Fetească Neagră. With the help of talented oenologists, these grapes are transformed into wines with excellent and distinct taste. Vinăria din Vale is one of the top Moldovan innovative wineries, with modern equipment and bottling lines and with an arsenal of 500 new French oak barrels. The wines created here were awarded at numerous international wine competitions (“Decanter World Wine Awards”, “Mundus Vini”, “Concours Mondial de Bruxelles”) and are appreciated by consumers from Romania, Netherlands, Belgium, Canada, USA, China, Japan, South Korea, etc.

- Tasting room (with 500 French barrels)
- Bottling room

Built in 1957, the “Javgur” winery is located in a natural amphitheatre of an exceptional beauty, situated in the ancient upper “Trajan’s Wall” (Valul lui Traian). The monument, which became a tourist attraction, situated in the village of Javgur, Cimişlia, passes through the vineyards, as well as the entire territory of the Republic of Moldova, from Prut to Nistru river.

The grapes cared with love and picked by hand on the 87 ha of vineyards give birth to a true bottled poetry, with names like Chardonnay, Sauvignon Blanc, Muscat, Pinot Gris, Merlot, Pinot Noir, Cabernet, etc.

The oenologist Gheorghe Scutaru is at the helm of the winery for over 35 years, passing his passion and his love for wine to his children. A new generation chose to follow the same path beaten by their father and combine traditional winemaking practices with modern technologies.

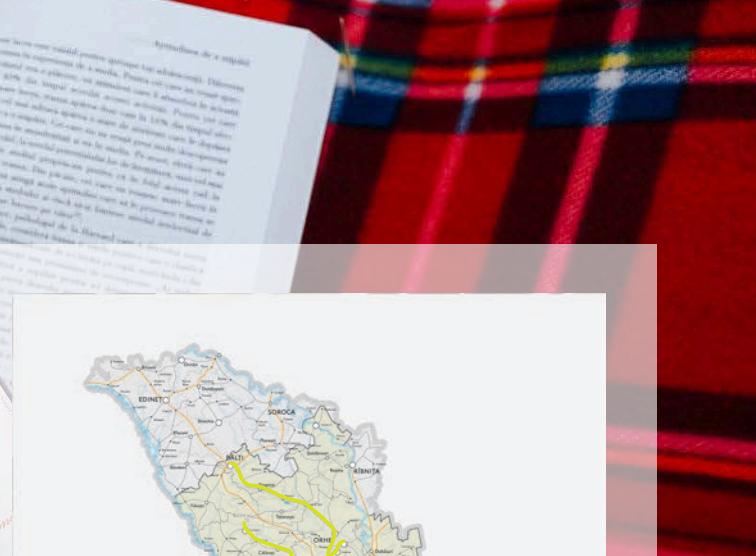

“Javgur” winery is part of the “Ştefan Vodă” Protected Geographical Indication, and produces special and quality wines, which reflect our terroir and the relation between man and nature. Scutaru family’s passion for winemaking gives birth to philosophy in each glass of wine. Our objective is to make special and quality wines.

Javgur Winery – wines preserving family values!

- Participation at grapes picking and wine production (August-November)
- Touring of the lake near the winery by pedal boats

“Vinuri de Comrat” is one of the oldest wineries in the South of Moldova. For over 100 years, the winemakers of Comrat are passing on, from generation to generation, the wine production traditions.

Visiting the “Vinuri de Comrat” winery offers an insight into the history, traditions, culture of the Gagauz people, an ethnic minority in the South of the country, and the special wines produced here.

The cellars are situated in the historic part of the winery, storing tens of barrels where wines are being aged and where they acquire their nobility, flavour and a taste, which instantly conquers anyone as they take their first sip. In this area, you can also find the museum, where household items and production equipment from the Soviet era are displayed.

Depending on each of the visitors’ preference, the tastings can be organized in the underground area of the winery, dating from the 1895, and when the weather is beautiful, a few wooden gazebos in the courtyard of the winery are ready to sit the guests.

The generous touristic offer was awarded with the golden medal “Wine of Moldova. A Legend alive” for the remarkable merits in developing and promoting the wine tourism.

Vinia Traian was established in 1975 and is located in southern Moldova in the village of Gavanoasa close to the borders with both Romania and Ukraine. The winery itself is close to its own vineyards which are planted slopes of the Bugeac Plain and across Trajan's Wall. This area is considered to be the cradle of noble winemaking in the region, based on long multi-secular traditions. Here, the bouquet of wine can take visitors back into history to discover ancient local cultures and traditions, to experience the taste of grapes grown by the ancient Romans and to learn about the five thousand year old Scythian burial mounds, the historic fortification that was Emperor Trajan's Wall and the events of the Russian-Turkish War. Along with a wine tasting, visitors are invited to try the local cheeses and traditional dishes typical of the Gagauz region such as kavarma and sarmale. On special occasions, visitors can take trips to nearby historic monuments.

# TOURIST DESTINATIONS IN MOLDOVA

**SOROCA FORTRESS**

The Soroca Fortress was built in the 15<sup>th</sup> century and is the only fortress in the whole of Moldova to survive intact to the present day. It's notable for its architectural system of fortification: five towers joined by walls form a circular enclosure, a structure able to withstand heavy artillery and siege attacks. The Soroca fortress is contemporaneous with the Italian Renaissance and it shares features with many fortifications in Northern Italy (such as the castle at Caprarola and Castel Del Monte). The Soroca fortress also shares resemblances with Queenborough, Walmer and Deal castles in Kent, England. In its history, the Soroca Fortress has stood witness to some of worst battles and wars across this territory.

**TIGHINA FORTRESS**

The Tighina Fortress, located on the bank of the Nistru River, was one of the strongest fortresses of Moldova. During the 1470s to 1480s, Tighina was incorporated into the Principality of Moldavia. It became an important point on the Moldovan Trade Route, also known as the Tartar Road. This connected Western Europe with the Orient through the Danube ford at Isaccea as well as linking Byzantine regions on the right bank of the Danube with Caffa and Genoese colonies in Crimea. The road crossed by Tighina with links to other medieval fortresses at Hotin, Soroca, Cetatea Albă, and to the Black Sea. The Tighina Fortress became a key location in both military and civilian terms. It played an important role during decisive historical events for Moldova, Russia and the Ottoman Empire. In 1709, Swedish King Carol XII and Ukrainian Cossack hetman (leader) Ivan Mazepa took sanctuary in the city for an extended period. According to legend, Mazepa's chariot, made of pure gold, is still hidden in the Tighina fortress and the crown of Carol XII remains hidden somewhere in the dungeons. Tourists can visit the site of the fortress as well as two nearby museums: the Tighina Fortress History Museum and the Museum of Torture.

## CULTURAL, NATURAL AND LANDSCAPE RESERVE “ORHEIUL VECHI”

The natural and cultural reserve of Orheiul Vechi (Old Orhei) includes several historic and cultural monuments as well as the natural landscapes of the Răut River gorge. This area has been populated, and partially urbanized, since Palaeolithic and Neolithic times. Its history of several millennia covers the Dacian civilization in the 5<sup>th</sup>-3<sup>rd</sup> centuries BC; the remnants of the medieval city Sehr al-Cedid, built by Tatar-Mongols in the 14<sup>th</sup> century and the village of Old Orhei, built by Moldovans in the 15<sup>th</sup>-16<sup>th</sup> centuries. In the limestone cliffs, visitors can see a Christian cave monastery with cells and religious inscriptions carved into the stone by the monks in the medieval and modern ages. The geology of the area is of rare beauty, with steep cliffs soaring to heights of 170-180 m. The reserve is currently on the list of candidate sites for UNESCO World Heritage status.

## VILA ROZ

Lunch/dinner: from 7 €

Accommodation fee: from 20 € (breakfast included)

Situated in the village of Trebujeni, Vila Roz is the perfect place to relax on holiday and to enjoy the heady scent of hundreds of roses blooming in the host's garden. Guests may also chill by the outdoor swimming pool, cook a barbecue or take free bicycle rides. Vila Roz offers accommodation all year round and has two guesthouses with six rooms (sleeping either two, three or six). Adventurous travellers can opt for camp sites in the villa's garden, complete with access to the terrace, two modern bathrooms and even tents for rent. The host is a talented cook and offers masterclasses where guests can learn how to prepare traditional dishes.

## ȚIPOVA MONASTERY

The Țipova Monastery is located above the Nistru river approximately 100 km north of Chișinău, 40 km from the town of Rezina and 45 km from Orhei. It is one of the most beautiful monasteries in Moldova and is comprised of three monastic complexes carved into the rock. The first complex consists of several cells and a chapel dedicated to the “Exaltation of the Holy Cross” that dates back to the 11<sup>th</sup>-12<sup>th</sup> centuries. The chapel dedicated to “Saint Nicholas” was the centre of the second monastic complex, founded in the 14<sup>th</sup> century. The largest cluster of cells is located around the chapel dedicated to the “Assumption of Virgin Mary”, which dates back to the 16<sup>th</sup>-18<sup>th</sup> centuries. Nearby along several kilometres of river bank, hundreds of ancient and historical artefacts have been discovered. This is a unique landscape with incredible archaeological diversity: ancient villages and towns, castles, churches and cemeteries have been dug into the steep bank.

## CĂPRIANA MONASTERY

The Căpriana Monastery is dedicated to the “Assumption of Virgin Mary”. It’s located in the village of Căpriana, 36 km northwest of Chișinău and 16 km from Straseni and is one of the oldest monasteries of Bessarabia. The first documentary reference mentioning the church dates back to 1420. Because it had the status of a royal monastery, several princes of Moldova ensured its monastic endowment. The monastery, which was built at first of wood, suffered from the repeated invasions by the Tatars and Turks. Stefan the Great was the founder of the stone church at the site in 1491-1496. In Soviet times, Căpriana monastery, as with all the places of worship in the Moldovan SSR, suffered greatly and its wealth passed into state ownership. In 1962 it was closed and left to fall into ruin. Only in 1989, when the national liberation of Moldova began, was the monastery reopened.

## SAHARNA MONASTERY

The Saharna Monastery is located 8 km from the town of Rezina, 60 km from the town of Orhei and 110 km from Chişinău. This monastic complex is also a nature reserve under government protection and covers an area of 670 ha of land. Originally, the monastic complex included a small hermitage (Horodiste) and a small chapel carved into rock celebrating the Annunciation. In 1776, monk Vortolomeu Crungul, and a group of other monks, came from Russia and settled the complex. They repaired the chapel and its cells. In 1863, at the time of Abbot Serafim, another chapel for winter orations and a series of cells were constructed. This chapel celebrates the Holy Virgin Mother of God. It has been renovated recently and new frescoes have been painted. Saharna is also famous for its 22 waterfalls. One of the most beautiful is very close to the monastery, falling from a height of 10 metres and forming a deep pool called the “Gipsy Hole”.

## HÂNCU MONASTERY

Hâncu Monastery is dedicated to “Saint Pious Paraskeva” and is located about 70 km west of Chişinău and 32 km from Straseni. In 1678, a new sanctuary was founded, carrying the name of the protector of Moldova – Pious Paraskeva. It’s believed that the monastery itself was founded by the Moldovan boyar (leader), Mihalcea Hâncu. In 1817, a wooden church was built at the monastery. It had a wooden iconostasis decorated with flowers gilded with gold leaf. The walls inside the church were decorated with many beautiful icons, eight of which were painted on planks of wood and gilded. Hâncu was the first monastic settlement of Bessarabia where religious community life was introduced, in approximately 1820-1822.

## CURCHI MONASTERY

Curchi Monastery is dedicated to the “Nativity of Virgin Mary” and is located in the village of Curchi, Orhei district, 12 km from Orhei and 55 km from Chişinău. The monastery has a rich religious and cultural past spanning over two centuries. It was founded in 1773-1775 and became one of the richest, most beautiful, and largest monasteries in Moldova. Several churches were built on the monastery’s premises: St. Demetrius, a wooden church built in 1775 by Ioan Curchi; Naşterea Domnului (Nativity), a stone church built in 1810; the winter church of St. Demetrius built in 1844; the summer church also Naşterea Domnului (Nativity) built in 1872; and the winter church of St. Nicholas (unfinished), built in 1936-1939. The monastery’s main church, the Nativity cathedral (1872), is built in baroque style, inspired by the church of St. Andrew in Kiev, which was designed by the Italian architect Bartolomeo Rastrelli. The cathedral has the highest dome in Moldova, rising to a height of 57 metres

## NOUL NEAMŢ MONASTERY

The Noul Neamţ Monastery is an Orthodox monastery located on the banks of the Nistru river, about 105 km east of Chişinău, 30 km from Căuşeni and 20 km from Tiraspol. The monastery was founded in 1861, when several monks from the Neamţ monastery left and founded Noul-Neamţ in Chiţcani. This action was a protest against measures taken in United Principalities of Romania to confiscate monastic estates and forbid the use of the Slavic language in worship. On May 16<sup>th</sup>, 1962 Soviet authorities closed the monastery and the buildings became a hospital. The monastery church was reopened in 1989 and from 1991 it hosted the Romanian-language school for Orthodox priests.

## EMERGENCIES

Nationwide emergency phone number: 112

## TAXI

Moldova's taxi service is the most convenient method of travel for tourists in Chişinău. Within the city limits, it will cost you about 50-70 lei (3€ -5€). A trip to the airport and outside the city will be charged per km. You can call a taxi using a phone app – iTaxi, Yandex Taxi Chisinau – or by calling one of the following numbers:

14002; 14111; 14428; 14100; 14333; 14747; 14499; 14555; 14911; 14101; 14000; 14110; 14250; 14441; 14444; 14005; 14554; 14800; 14004; 14120; 14222; 14006; 14090; 14442; 14007; 14098; 14448; 14008; 14999; 14474; 14545; 14700; 14777.

You can also ask your hotel to help you with taxi services.

## TROLLEYBUSES

There is an extensive trolleybus public transport network within the capital Chişinău as well as other major cities (Bălţi, Bender, Tiraspol). Trolleybuses run between 5 am and 1 am. A trolleybus ticket costs 2 lei (€0.11). It is the cheapest method of transport within the metropolitan zone.

## BUSES

Public bus services are available in almost every mid-sized to large city in Moldova. Every public bus stop displays a timetable for buses and trolleybuses. A bus ticket costs 3 lei (€0.16)

## INTERNET IN MOLDOVA

Internet in Moldova is one of the fastest and cheapest in the world. The country ranks 3rd in the world by gigabit coverage with around 90% of the population having access to a fast service. Visitors to the country may opt for pre-paid mobile data packages, usually operating at 4G speeds, from one of three mobile operators. A wide network of WiFi hotspots is available, some, located in public places like parks are free. The overall infrastructure is well developed so users should experience good quality services throughout the country.

## ELECTRICITY

In Moldova, power sockets are of type C and F. The standard voltage is 220 V and the standard frequency is 50 Hz

## OFFICIAL TIME

Moldova is in the Eastern European Time Zone:

GMT/UTC +2h during Standard Time

GMT/UTC +3h during Daylight Saving Time

## LOCAL CURRENCY AND EXCHANGE RATES

The official currency of Moldova is the Moldovan Leu (MDL). One leu is divided into 100 bani. The official rate of exchange fluctuates daily, depending on the foreign exchange market. Foreign currency may be exchanged for Moldovan Leu at banks or licensed exchange bureaux. Credit cards are accepted in most hotels and stores. For the official exchange rates please visit [www.bnm.md](http://www.bnm.md)

## CURRENCY RESTRICTIONS FOR ENTRY/EXIT:

10,000 Euros or equivalent

# NATIONAL OFFICE FOR VINE AND WINE - PROMOTING THE WINE SECTOR

The National Office for Vine and Wine (ONVV) is the main body that manages the Moldovan wine sector. It is organized through a public-private partnership, and was created with government support after sector reforms in response to various external and internal industry challenges.

The ONVV's scope is to develop and implement state policies in the wine sector, including vine and grape growing and promotion of quality wines through the national country brand "Wine of Moldova. A Legend Alive". It also manages the production of PGI and PDO wines and provides technical assistance and consultancy to the Moldovan wine industry.

In the short period of time since its foundation, the ONVV has established itself as the leading source of expertise in the Moldovan wine sector. It has contributed to legal and regulatory reform, and serves as a united platform for the reputation and marketability of Moldovan wine.
